OBJECTIVE

As a dedicated and enthusiastic Information Technology graduate, I seek to launch my career as a software developer in a forward thinking and innovative company. I aim to leverage my strong foundation in programming, software development, and problem solving skills to deliver high-quality solutions. Committed to continuous learning and adapting to new technologies, I am eager to contribute effectively to team projects and help drive the organization's technological growth and success.

EDUCATION

Bachelor of Information Technology, Kamaraj College of Engineering and Technology   Expected 2025

SKILLS

Technical skills:Java, ReactJS, DBMS , SQL, MongoDB .
Soft Skills: Communication, Time Management, Adaptability , Team collaboration

CREDENTIALS

Digital Marketing   May 2024
Issued By   *Google*

SQL(Basics)   Jan 2024
Issued By   Skillrack

Introduction to C Programming   Apr 2023 - Jul 2023
Issued By   *NPTEL*

UI/UX   - Aug 2023
Issued By   *Great Learning*

PROJECTS

Brain Tumor Detection. Developed a Brain Tumor Detection system using wavelet transformation and Support Vector Machines (SVM) to classify tumors as Malignant or Benign from MRI images. The project incorporated grayscale conversion and segmentation techniques to process real-time datasets, providing accurate and actionable insights for medical analysis.

Blog Website. Designed and developed a responsive blog website using the MERN stack, with a React.js and Tailwind CSS frontend. The project features CRUD operations, image uploads with Multer, and seamless API integration, emphasizing user-friendly interfaces and efficient database management with MongoDB.

Library Managament System. Developed a Library Management System using HTML, CSS, and JavaScript for the frontend, and PHP for the backend. The system allows efficient management of book records, user accounts, and transactions, providing a seamless user experience and streamlined library operations.

PORTFOLIO

- Explore my portfolio at My Portfolio featuring a diverse range of projects in web development and software engineering, showcasing my expertise in various modern technologies and problem-solving techniques.
